Nada Gamal

Nada Gamal has achieved an MA in International Relations and European Studies, awarded cum laude from the University of Florence, and another MA in Space Policies and Institutions from SIOI in Rome. Since starting her professional journey in 2019, she has contributed to various sectors, including academic research, the private sector, and the public sector. Results-driven and detail-oriented researcher with a proven track record in cyber security and space security. Skilled in conducting thorough analyses, developing innovative solutions, and collaborating effectively with cross-functional teams.

Experience

Rome, Italy
Apr 2023 - Present

Project Manager Assistant, CISO Professional Program
National Interuniversity Consortium for Informatics (CINI)

- Managed the implementation activities for the CISO Professional Project Program, facilitating collaborations across teams to meet strategic objectives and deadlines.
- Planned and executed a series of comprehensive cybersecurity training sessions tailored for Chief Information Security Officers (CISOs), enhancing their skills and knowledge to better protect organizational assets.
- Led thorough research activities to develop didactic materials, ensuring content accuracy and relevance. Reviewed and curated training module content to align with industry standards and learning objectives.
- Coordinated the translation of training materials into Arabic as needed, broadening accessibility and comprehension for regional participants.
- Conducted extensive benchmarking analyses and research focused on space policies and cybersecurity strategies for GCC countries, identifying best practices and emerging trends.
- Maintained continuous interaction with both public and private stakeholders, ensuring alignment with project goals and fostering relationships that support strategic objectives.

About Dhabi, United Arab of Emirates
Oct 2022 - Jun 2023

Cyber Security Analyst
KPMG Lower Gulf

- Spearheaded the development and benchmarking of national cybersecurity and public key infrastructure (PKI) strategies. Focused on aligning with international best practices to enhance national security postures.
- Conducted thorough cybersecurity maturity assessments for various companies, identifying vulnerabilities and providing actionable insights for enhanced security measures.
- Directed the implementation and auditing of Information Security Management Systems (ISO 27001) and Quality Management Systems (ISO 9001), ensuring rigorous compliance and operational excellence.
- Performed comprehensive compliance assessments against UAE Information Assurance Regulations, leading in-depth evaluations and recommendations.
